EDUCATION

Hong Kong Baptist University **Sep 2025 – Jul 2029**
Ph.D. student in Computer Science
Supervisor: Amelie Chi Zhou

Dalian University of Technology (985 & 211) **Sep 2019 – June 2023**
B.S. in Artificial Intelligence **GPA: 3.89/4.0**

RESEARCH INTEREST

My research interests lie broadly in DLRMs training/serving optimization, generative RecSys acceleration, CXL techniques and GPU Virtualization techniques.

PUBLICATIONS

When KV Meets Embeddings: Dynamic GPU Memory Allocation for Accelerating Generative Recommender Serving
Wenjun Yu, Amelie Chi Zhou, Shuguang Han (Alibaba – Xianyu)
(SC 2026, CCF-A) International Conference for High Performance Computing, Networking, Storage, and Analysis

Near-Zero-Overhead Freshness for Recommendation Systems via Inference-Side Model Updates
Wenjun Yu, Sitian Chen, Amelie Chi Zhou, Cheng Chen (Bytedance – Douyin)
(HPCA 2026, CCF-A) IEEE International Symposium on High-Performance Computer Architecture

WORK EXPERIENCE

Research Assistant **Feb. 2025 – Aug. 2025**
Hong Kong Baptist University *Hong Kong, China*
• Designed a LoRA-based online update mechanism for recommendation models, reducing communication overhead during model updates. Published in HPCA 2026.
Supervisor: Amelie Chi Zhou

GPU Virtualization System Engineer **Aug. 2023 – Feb. 2025**
VirtAi Technology *Beijing, China*
• Design a playback-based hot migration module for NCCL-based deep learning programs, which allows deep learning tasks to be migrated to different GPUs within a single machine without interrupting the training process
• Design GPU computing resource control module, it hooks the CUDA launch kernel APIs, then monitors and controls the CUDA kernel rate for deep learning jobs to balance GPU computing resources or set computing resource priorities for different tasks in the OS layer
Leader: Zengshi Huang

Quantitative Trading System Developer Outstanding Intern **Apr. 2022 – Sep. 2022**
ZhuoShi Private Equity Fund *Beijing, China*
• Developed a millisecond-level Kafka-based index calculation service
• Develop exchange's seat selection module based on LambdaMart algorithm
Mentor: Yu Wang, Lijian Ge

AWARDS & HONORS

RPg Research Performance Award of Hong Kong Baptist University ($1w HKD) * 2

Merit Student of Dalian University of Technology

National Scholarship of Dalian University of Technology

First Class Scholarship (Top 5%) of Dalian University of Technology * 4

SKILLS

Techniques: C++, Cuda, Python

Languages: Mandarin(native), English(IELTS-7 CET 6-592)
